EF2 BIG BLUE FLOAT 900MM 900MM

Weekly Hire: £75.00

Big blue glider trowel is constructed from carbon fibre steel which provides for a super smooth surface finish of concrete flat work, often eliminating the need to power float...The blade of the big blue is curved at the ends to prevent the digging of the work surface and eliminate lap marks. Easy to use..• c/w knucklehead gearbox that allows the blade to be effortlessly pushed and pulled across the work surface..• Lightweight and easy to transport
