A10 HIRE TILE REMOVER WOLFF DURO 200MM ELECTRIC

Weekly Hire: £130.00

The DURO-STRIPPER removes bonded, flexible floor coverings in strips. It uses an oscillating system, i.e. the blade performs a circular movement. Before starting work, the flooring needs to be cut into strips of the blade's width. To begin cut one strip crosswise. Then lift the flooring slightly in order to get the blade underneath it. We recommend cutting the first strip at right angles to the main working direction. By so doing access to the next strips is made easier. Cut the strips smaller if the floor covering...
