F24 HIRE POWERFLOAT 600MM PETROL 24"

Weekly Hire: £165.00

The F24 is a compact (24” diameter) yet high performing walk behind power float that has been specifically designed to trowel/surface finish small surface areas, edges and corners,and is ideal for working in confined spaces where it is physically impossible to use larger diameter machines...The F24 is the choice machine of the professional flooring contractor when working is small, confined areas...The F24 also features a rotating guard ring which allows the operator to power float right up to walls etc, and is lightweight...
